

SALTER®

SINCE 1760

Elegance 6 Piece Knife Set

Instruction Manual

Safety Instructions

Warning: Sharp blades; handle with care.

Keep out of the reach of children.

Never use the knives with wet hands.

Always pick up and hold the knives securely by the handles.

Always use a plastic or wooden cutting board to avoid blunting the blades or marking worktop surfaces.

Do not use the knives on glass worktop savers, as these damage the blades.

Do not use the knives to cut through meat bones, hard material or frozen food.

Do not place the knives near a flame or source of direct heat.

Do not use the tip of the knife as a screwdriver or can opener and do not twist the knife in a crosswise direction.

Knives require regular sharpening to maintain the sharpness of the cutting edge and should be cleaned before the next use.

The knives should be checked for damage before each use. If there are any signs of damage, they should be disposed of carefully.

Before First Use

Hand-wash carefully.

Cleaning And Maintenance

Not suitable for dishwasher use; the harsh and abrasive effects of dishwasher

detergents and salt will corrode the stainless steel and damage the knife block.

Clean the knives in warm, soapy water with a soft cloth, rinse and dry thoroughly.

Wipe the knife block with a soft, damp cloth and dry thoroughly.

Do not use harsh or abrasive cleaning detergents or scourers, as these may corrode or damage the surface of the knives.

Do not leave the knives to soak or be stored in wet places for long periods of time, as this can cause corrosion.

Extended contact with high limescale water and certain food groups can cause stainless steel to stain or corrode. This can be polished off with vinegar or a standard stainless steel cleaner.

Storage

Store the knives carefully and safely. To prevent injury or damage, it is recommended to store the knives in the knife block.
