Mill

Instructions & Guarantee

76XX GEN

To fill mill: unscrew the grind adjust knob at the top of the mill completely and remove the knob and head. Fill the bottom chamber with your choice of dry coarse sea salt crystals (not flakes or rock salt) or standard size dried peppercorns. Replace the head and grind adjust knob.

To adjust: the coarseness of the grind can be adjusted by either loosening or tightening the grind adjust knob at the top of the mill. Turn anticlockwise for coarse and clockwise for fine grind.

To use: Turn the head of the mill in a clockwise direction only to aid even flow.

Care: when adjusting the mill take care not to over tighten the grind adjust knob as this can cause damage to the ceramic mill stone. Ground residue may remain between the 2 grinding surfaces preventing the finest grind from being produced. Turn the mill upside down and grind to release any trapped grounds. Turn the mill the correct way up and readjust the grind knob to achieve the finest grind.

Clean: Wipe the mill body with a slightly damp cloth. DO NOT immerse in water or use chemical / abrasive cleaning agents. Thoroughly dry the mill after cleaning. Not suitable for dishwashers.
